Important Disclosures

This document contains forward-looking statements. Forward-looking statements include, but are not limited to, statements regarding the Company's management's expectations, hopes, beliefs, intentions or strategies regarding the future and other statements that are other than statements of historical fact. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words "anticipate", "believe", "continue", "could", "estimate", "expect", "intend", "may", "might", "plan", "possible", "potential", "predict", "project", "should", "would" and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. These statements are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in the Company's records and other data available from third parties. Although management believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond the Company's control, the Company cannot assure you that it will achieve or accomplish these expectations, beliefs or projections. Actual results may differ materially from those expressed or implied by such forward-looking statements.

Factors that could cause actual results to differ materially from those discussed in the forward-looking statements include, but are not limited to: changes in shipping industry trends, including charter rates, vessel values and factors affecting vessel supply and demand; changes in seaborne and other transportation patterns; changes in the supply of or demand for dry bulk commodities, including dry bulk commodities carried by sea, generally or in particular regions; changes in the number of new buildings under construction in the dry bulk shipping industry; changes in the useful lives and the value of the Company's vessels and the related impact on the Company's compliance with loan covenants; the aging of the Company's fleet and increases in operating costs; the Company's ability to achieve successful utilization of its expanded fleet; changes in the Company's ability to complete acquisitions or dispositions; risks related to the Company's business strategy, areas of possible expansion or expected capital spending or operating expenses; changes to the Company's financial condition and liquidity, including its ability to pay amounts that it owes and obtain additional financing to fund capital expenditures, acquisitions and other general corporate activities; changes in the availability of crew, number of off-hire days, classification survey requirements and insurance costs for the vessels in the Company's fleet; changes in the Company's ability to leverage the relationships and reputation in the dry bulk shipping industry of its managers; changes in the Company's relationships with its contract counterparties, including the failure of any of its contract counterparties to comply with their agreements with the Company; loss of our customers, charters or vessels; damage to the Company's vessels; potential liability from future litigation and incidents involving the Company's vessels; the Company's future operating or financial results; the Company's ability to continue as a going concern; acts of terrorism and other hostilities; changes in global and regional economic and political conditions; risks associated with operations outside the United States; changes in governmental rules and regulations or actions taken by regulatory authorities, particularly with respect to the dry bulk shipping industry; and other factors listed from time to time in the Company's filings with the SEC, including its most recent annual report on Form 20-F. These factors could cause actual results or developments to differ materially from those expressed in any of the forward-looking statements. Consequently, there can be no assurance that actual results or developments anticipated in this document will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, the Company. Given these uncertainties, you are cautioned not to place undue reliance on such forward-looking statements. Except to the extent required by law, the Company expressly disclaims any obligations or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the Company's expectations with respect thereto or any change in events, conditions or circumstances on which any statement is based.

While all the information in this document is believed to be accurate, the Company makes no warranty, express or implied as to the completeness or accuracy of such information, nor can it accept responsibility for errors appearing in the document. Certain information contained herein has been provided by third parties and has not been independently verified, and the Company does not represent or endorse the accuracy or reliability of any such information. This document is subject to revisions and amendments without notice by the Company and without the obligation to notify any recipient of any such amendment.

The Company undertakes no obligation to publicly update or revise any forward-looking statement contained in this presentation, whether as a result of new information, future events or otherwise, except as required by law. In light of the risks, uncertainties and assumptions, the forward looking events discussed in this presentation might not occur, and the Company's actual results could differ materially from those anticipated in these forward-looking statements. The Company has filed a registration statement (including a prospectus) with the US Securities and Exchange Commission (the "SEC") for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents that the Company has filed with the SEC for more complete information about the Company. Company History

2022: Spin-off & first investment cycle

- **Established as a spin-off entity** from Seenergy to follow an opportunistic & sector-agnostic investment strategy.
- **Commenced trading on July 6th on NASDAQ Capital Market** under the ticker symbol “USEA”; **acquired a fleet of four tanker vessels**, consisting of two Aframax oil tankers and two LR2 product tankers.
- **Successfully completed a public offering** with gross proceeds of approximately \$26.0 million.
- **Executed the first \$3 million buyback program, repurchasing approximately 1.86 million shares**, representing approximately 20% of the company’s outstanding common shares at that time.
- **Entered into agreements for the sale of its two Aframax vessels** and completed **a second buyback program of \$3 million** of its outstanding common shares.
- Declared **a special cash dividend of \$1.00 per common share**, following the profitable sale of the two Aframax vessels.
- Entered into an agreement for the **sale of one of its LR2 product tankers** at a premium of over **100% of the vessel’s acquisition price**.

2023-2025: Second investment cycle & growth

- **Acquired two Japanese Capesize vessels** from Seenergy, the M/Vs Goodship and Tradership, marking the beginning of its second investment cycle.
- Sold its last **LR2 product tanker** at a premium of over **85% of the vessel’s acquisition price**, concluding its first investment cycle.
- Expanded into other dry bulk segments by **acquiring two Kamsarmax and one Panamax vessels**. Concurrently, **chartered two Panamax vessels** under bareboat charter agreements, later acquired through the exercise of their purchase options.
- Completed **the profitable sale of a 2010-built Kamsarmax vessel** and **chartered another Kamsarmax vessel** under a bareboat charter agreement.
- Successfully executed a strategic **sale of our oldest Capesize bulker**, significantly **enhancing the overall age profile** of United's fleet
- Launched **initiatives in line with a diversified investment strategy**:
 - ✓ Participation in a newbuilding energy construction offshore vessel (“ECV”) project
 - ✓ Participation in a tanker time-charter agreement
- Completed **\$102.8 million in financing and refinancing transactions**, supporting the company’s growth.

Long-term debt ⁷	\$94,480
Total Equity	\$55,623

1. Fleet utilization is the percentage of time that the vessels are generating revenue and is determined by dividing operating days by ownership days for the relevant period.
2. Time Charter Equivalent (TCE) rate is defined as our net revenue less voyage expenses during a period divided by the number of our operating days during the period. Voyage expenses include port charges, bunker (fuel oil and diesel oil) expenses, canal charges and other commissions. We include TCE rate, a non-GAAP measure, as we believe it provides additional meaningful information in conjunction with net revenues from vessels, the most directly comparable US GAAP measure, and because it assists our management in making decisions regarding the deployment and use of our vessels and in evaluating their financial performance. Our calculation of TCE rate may not be comparable to that reported by other companies.
3. Net Revenue after deducting commissions.
4. Earnings before interest, taxes, depreciation and amortization ("EBITDA") represents the sum of net income/(loss), interest and finance costs, interest income, depreciation and amortization and, if any, income taxes during a period. Includes arrangement fees and various deferred charges.
5. Cash and cash equivalents including restricted cash and term deposits.
6. Vessels and right-of-use assets, net, advances for vessels' acquisitions and vessels held for sale, if applicable.
7. Long-term debt, lease liabilities and other financial liabilities, net of deferred finance costs.
